U. S. STANDS FOR SERVICE SAYS COOLIDGE

Vice-Presidential Nominee in Speech in South Tells Necessity of Work

(By Associated Press)
CHARLOTTE, N. C., Oct. 22.—Coolidge is synonymous with service, declared Governor Coolidge in an address here yesterday, bringing allusions to the honor and dignity of work. He said he spoke of service in the spiritual as well as the material sense and continued: "That people will fail which devotes itself exclusively to the accumulation of wealth and which makes properly the chief end of man. That people will become strong and vigorous whose work is measured by the deeds of right and justice and liberty."

The Republican party, he said, cherishes no delusions that any scheme of government or any change in the organization of society could relieve the people from the poverty of work. The rule of nature must be set aside. On the other hand, the way to success and character, he said, can be achieved only at the price of constant effort. It is a law to disregard which is to invite destruction and anarchy, and to improve which is to develop power and government.

The American people, the governor went on, have always exalted labor, whether of the head or hand. In the old Europe, he said, sharply differentiated between its peoples and established their rank and social position by the kind of work performed. "We shall have no such artificial standard here," he said. To be the tiller of the soil and the skilled mechanic are measured by the same regard as the doctor or lawyer or banker. We demand that each of us shall do his work and do it with all his skill and might and energy. And we can demand promptly in return that the conditions under which the work is done shall be fair and decent, with adequate reward for accomplishment."

COX SAYS LEAGUE INSPIRED BY GOD

(By Associated Press)
TRENTON, N. J., Oct. 22.—A one-day campaign in New Jersey was opened here by Governor Cox with a noon theatre meeting at which the Democratic candidate asked for a "mandate" of ballots to "overthrow the greatest conspiracy in all the ages." This, he said, was against world peace as proposed under the league of nations. The league, the governor said, was "inspired by God as much as was the declaration of independence itself."

SCHOOL DANCE RAISES BIG SUM

The dance given by the Currant high school girls on October 15, for the purpose of raising funds for the high school, was a pronounced success. The school house where the dance was given was decorated in the school colors, blue and gold. A chicken supper was served at midnight at the Calloway home, the people of the Creek furnishing the supper. Those who attended the affair came from Blue Eagle, Truckee, White River and Tonopah. The music was contributed free of charge and the musicians played until daybreak. Everyone felt they had been treated royally and were well repaid for coming. The girls wish to thank the people who patronized the dance, also the graduates from Tonopah who gave liberally for the cause and furnished cars to carry the guests to and from supper. The sum collected amounted to \$182.

Chairman of G.O.P. Sees Sweeping Victory Ahead

(By Associated Press)
CHICAGO, Oct. 22.—Will H. Hays, chairman of the Republican national committee, reached here recently from the east and is full of optimism over the political situation from a Republican standpoint. He declares that Harding and Coolidge will sweep the northern and western states solidly and make enough gains in the south to make an enduring wedge in the "solid south."

"There is great interest in the senatorial rights now being waged in Maryland, South Dakota, Kentucky, Oregon, Colorado, California, Nevada and Arizona," declared Mr. Hays. "We will hold all of our present senators and make substantial gains."

"The forward march to Republican victory moves on irresistibly. The reason is summed up in two words, 'America First.'"

"That means more than the preservation of our constitutional independence against super-government abroad. It means more than the protection of constitutional functions against White House theft of authority at home. It means that the pressing domestic problems of 'America First' are in the public mind and that these domestic problems are again to have progressive and constructive and effective attention at Washington."

"We must and shall do our whole duty by the world's peace with an eye to 'America First.' But the elaborate reforms to forget that the Wilson league is a contract for international peace parading in the clothes of peace is only one of a score of utter failures and betrayals which November's solemn referendum must settle. It refuses to keep its eyes riveted on Europe. It refuses to ignore the driving domestic problems, close to every hearthstone, before which the Democratic party has stood impotent and confessed bankruptcy."

"It is the thinking of 'America First' and all the accumulated work in Washington, which cannot much longer be denied effective attention if 'America First' is to last. It is the thinking of these throttling taxes which must speedily be changed—and reduced as quickly as possible—and American prosperity is to survive. It is thinking of guarantees for

MONKEY BITE MURDER PLOT SAYS DOCTOR

Animal Had Been Inoculated With Rabies Purposely Claims Physician

(By Associated Press)
ATHENS, Greece, Oct. 22.—The injuries inflicted upon King Alexander by a monkey were the result of a plot to assassinate the young monarch, according to Dr. Georges Widal of Paris, who has been attending the king, and who was interviewed by the Messager while he was passing through Rome. "While the story of the monkey biting King Alexander was correct, the monkey was suffering from rabies with which it had been artificially inoculated. Hence it was a veritable attack against the king's life," the doctor is quoted as saying.

King Alexander was resting easily last night, according to his physicians. At 11 o'clock he was in a calm sleep. Reports regarding the king's condition, however, are not considered at all satisfactory. His temperature has shown disquieting fluctuations.

5 PRECINCTS ARE ABOLISHED

Three voting precincts were abolished at the meeting of the board of county commissioners yesterday, and the voters in those precincts will cast their ballots at other places. Golden arrow precinct was combined with Arrowhead, Nyala with Blue Eagle and Silver Bow with Tonopah No. 1. These precincts will be known by the latter name in each case. Printer and Grantsville had previously been combined with Lone, thus cutting down the number of precincts in the county. The reason for cutting out these precincts was that in none of them were there 10 or more voters.

MAY WITHDRAW MINE GUARDS

(By Associated Press)
LONDON, Oct. 22.—The miners' conference of South Wales today asked the National Miners' federation to call a national conference to consider the withdrawal of all labor from the coal mines. The mines are being kept in order by specially assigned forces, and their withdrawal would render the pits useless for the resumption of work. Executives of the Associated Society of Locomotive Engineers and Firemen today decided to defer decision on the question of sympathetic action until Monday. A meeting of the miners tomorrow is generally believed to presage the possible reopening of negotiations with the government.

(By Associated Press)

(By Associated Press)
WASHINGTON, D. Banking machinery for the establishment of producers of co-operative marketing agencies was suggested as alternatives.
